**CLARIFICATIONS for RFQ 2021.MED.08.MV
for the
Supply and Delivery of two mini vans**

BID BULLETIN No. 2

Inquiries from vendors

Q. What would the minimum suitable capacity for the drinking water tank be?

A. 30 ltr

Q. Under the Structural- Architectural context, do you have a list of the equipment that will be included in the van – ideally with desired sizes for each? Or even brochures? That should help us get an idea of the structure and layout, for the best possible outcome from our side.

A. The point 3 mentions the equipment:

- 2 cabinets (one for storage with security lock and one for stationary).
- One office, one office chair and one staff stool
- One PC, wireless network installation for internet connection
- Alarm system
- One sunshade and 2 foldable seats. The sunshade should be external like the following photo.

- One trash can

The design must be such as to achieve the optimal utilization of the available space. We anticipate from the vendors to offer their solutions.

Q. The vehicle wrap, shall we offer it or will it be your own provision please?

A. According to legislation.

Q. Under the equipment context the office, seat and staff stool - what should their size be? Can you please explain further by providing us with more details?

A. The dimensions should maximize the utilization and ease of use of all of the equipment provided. We anticipate from the vendors to offer their solutions.

Q. Do you happen to have a sample of the visual layout of the vehicle to forward to us, so we can also view and adjust our review on that please?

A. No
