## **Bid Bulletin No 1**

### **4200797381b Supply and delivery of Household Appliances**

**Q.** Could you kindly advise on the following. For the electrical appliances as we are aware in Cyprus, power plugs and sockets (outlets) of type G are used. The standard voltage is 240 V at a frequency of 50 Hz. Could you kindly let us know if type plug F (Schuko)240 V at a frequency of 50 Hz could also be acceptable by providing also the necessary adaptor per each appliance for use in Cyprus?

**A.** Proposed configuration is not acceptable.
